

Residents Favor Extension Plan By Pacific Telephone

With only one or two exceptions, witnesses testifying before a hearing of the California Public Utilities Commission here last Thursday, were in favor of the application of the Pacific Telephone & Telegraph Company to extend telephone service in the Truckee-North Lake Tahoe communities.

In its application, the company proposes to eliminate toll charges between adjacent communities and install direct dialing. A portion of the loss from the toll charges would be offset by a slight raise in rates.

As an example, a business phone would advance from \$7 to \$7.75 per month, while an individual residence phone would go from \$4.40 to \$4.75 per month. Other services would advance proportionately.

If the application is approved it will be possible for subscribers in Tahoe City, Kings Beach and Truckee to dial direct between towns without extra charge. It will also give the subscribers at Homewood and Tahoe City the same privilege. Only adjacent communities will benefit from the extension, as a toll charge would be made for a call between Truckee and Homewood.

The proposed service would not affect the Soda Springs exchange.

The hearing was conducted by amir Martin Porter and Ernest amir Martin Porter and Armet Macario, staff representatives. There were also a number of company executives and attorneys present, with Len DeGallery, district company manager, as host.

A decision on the hearing is not expected for several weeks as close study will be made of transcripts.

Phone Manager Being Transferred

L. R. deGallery, Pacific Telephone manager in Tahoe City for the past two years, is being transferred.

DeGallery will work on special assignment out of the Marysville district office.

DeGallery, who has been manager of the Tahoe City, Brockway, Crystal Bay, Homewood, Soda Springs and Truckee exchanges, was a member of the Tahoe City Rotary Club.

He and his wife, Marie, and two daughters live in Tahoe City.

Domergue joined the phone company 25 years ago in San Francisco. For six years prior to coming to the Lake in 1960 Domergue was manager of the phone company in Ely, Nevada.

He is a member of the South Tahoe Rotary Club, Chamber of Commerce, and the Heavenly Valley Ski Club.

He and his wife, Gertrude, and their son and daughter will continue temporarily to live in South Tahoe.

Electric Discounts Will Be Dropped As Aid To Service

Directors of the Truckee Public Utility District last week made two important decisions designed to improve both the electric and water departments.

Faced with a problem of extending and improving the electric service, it was decided to discontinue the 10 per cent discount heretofore allowed on electric bills paid before the 10th of the month, and use the money thus saved to assist in financing improvements, now under way.

In adopting an ordinance providing for the elimination of the discount, the board strengthened its collection policy by providing for discontinuance of service if bills are not paid within the ten days allowed.

Manager Francis Longo explained that the money obtained through discontinuing the discount will be used exclusively for capital improvement of the department.

Members agreed that the action

Andres (Andy) Oroz, Jr., 19, son of Mr. and Mrs. Andres Oroz of Dayton, Nevada, and former well known Truckee residents when the family operated the St. Louis Cafe, died Tuesday from injuries suffered in a three car accident three miles west of Virginia City late Saturday.

Oroz, employed by the Sierra Pacific Power Company, was in a car driven by Ledo Quilici, 18, also of Dayton. The Quilici car collided with cars driven by Emmett Wood of Carson City and Victor A. Kirby of Dayton. None of the other involved suffered serious injuries.

HUGE STURGEON IS LANDED BY NIMRODS

D. R. Daly and his son, David, 7, of Truckee and Greg Bihlman, 13, of Live Oak had a very successful fishing trip to Meridian Easter Sunday and landed a 118 1/2 pound sturgeon from the Sacramento river.

The catch was made by the Bihlman boy on 20-pound tackle, using sardines for bait. The sturgeon was considerably heavier than the fisherman who weighed only 90 pounds and it took an hour and a half to bring the 81-inch monster to the boat.

Needless to say the fishing was over when the sturgeon was placed in the boat as there was not room for more.

Brown Hits Nixon Charges Against Squaw Operation

Squaw Valley, which has been used as a political "football" since it was chosen as the site for the 1960 Winter Olympic Games, came under more fire this week when Richard M. Nixon, republican aspirant for the governorship, charged the mismanagement of the state park is one of the "fishiest messes" in Governor Edmund G. Brown's administration.

Governor Brown retorted that Nixon's criticism was "biased and misleading" and said Squaw Valley already has paid its way by helping to establish one of the nation's greatest resort areas in northern California.

The governor acknowledged that the state is having difficulties in converting the facilities to state park operation. He noted that virtually all state parks operate at a loss but said that the loss is justified because they provide recreation areas for thousands of Californians.

Rap Publicity

In the meantime, a group of business people from Truckee, Tahoe City and Squaw Valley has been meeting with State Senator Ron Cameron and Assemblyman Paul Lunardi, urging the state officials to seek an end to the bad

Jackie Jensen To Make Bid For Golf Course In Truckee

Former Boston Red Sox Outfielder Jackie Jensen of Crystal Bay and Alex Stewart of South Tahoe, a popular playing combination in area baseball tournaments, are vitally interested in obtaining the Truckee Shadow Valley Golf Course.

The two have formed a business partnership in the field of golf investments, it was revealed this week.

The Jensen-Stewart combine has tendered bids for the local golf course with an eye toward moving the Jackie Jensen Invitational to that site.

It is expected that at least four bids for the local field will be opened by the board of directors of the Truckee Public Utility District at the meeting next Tuesday, May 8.

Should their bid go through, the 37 acres of land, with the new nine-hole golf course will be going to Jensen and Stewart on a lease basis, with the partners retaining an option to purchase it, according to the San Francisco Examiner.

The course is a full nine holes and is described as "sporty." It was completed last year through volunteer labor and financed to the extent of some \$125,000 by the Truckee Public Utility District, owner of the property.

"If we do get the course, you can be sure we will do everything we can to promote more golf activity in the area," says Jensen.

Local golfers as well as business interests have indicated a sincere hope that the bid will be accepted.

Hospital Observes 10 Years Service

The Tahoe Forest Hospital was 10 years of age on April 17 and in commemoration of the opening, the staff and board members held a brief ceremony last week concluding with the serving of coffee and cake. Administrator J. J. McGlade was in charge of the program.

The hospital was officially opened to its first patient on April 17, 1952 and since that time has been a refuge for hundreds of patients. How many lives have been saved because of its operation is a matter of conjecture, but certainly the number is large.

With the exception of careful maintenance and minor additions and improvements, the hospital is very much as it was 10 years ago, but the governing board is giving careful study to much needed additions and improvements and has decided upon a bond issue sometime in the future to bring the facilities up to standard requirements.

Well, the biggest thing happening in our fair city last week was naturally the Flaming Follies Review. Comments were ranging from 'the funniest' to 'the best local talent show we've ever had'—everyone worked so hard but all the cast and producers agreed it was worth every minute of it.

Practically the whole cast and most of the audience made the rounds of the various clubs after the closing performance Saturday and really let their hair down. Some of the old timers were more thrilled than anyone.

They said it reminded them of the 'old days' in Truckee when this type of entertainment was going on all the time. The Donner Lake Fire Auxillary took first prize for

the best skit and believe me, it was clever. Though the receipts weren't counted at this writing, the T. V. F. D. will be several hundred dollars richer and a worthy cause it was.

Hats were off to Gladys Pedley, Gladys Dolley and Patti Fink for a job well done. One can't imagine how much planning and coordinating must be done before the final presentation. Hope we have many, many more just like it.

Just talked to Bob Moore and he says there will be the usual first Monday of the month Country Club meeting in the fire house next Monday at 8 p. m. He's hopeful that everyone will turn out and express their opinions on what they want from the club. He said to remember that it belongs to all of us and he wants everyone to always feel free to speak up and bring out their ideas so the club

I understand the course is coming along fine but isn't quite read to open yet... some of the golfers were out banging the ball around on it Sunday getting in some practice.

Everyone is buzzing about the proposed sale of the course which will be decided on May the 8th and most of them are in agreement that it is a good move providing the district comes out money ahead... whoever buys it should surely be able to afford removing all the rocks from the roughs and blacktopping the parking area... I think a private owner will really push it ahead... there certainly is a lot of interest shown and from various comments going around. It looks as though there will be at least four offers and perhaps five... time will tell.

For Better Electrical Service

Your Directors of the Truckee Public Utility District are faced with a developing problem—that of extending and improving the electric department and at the same time maintain the present low rates.

Costs of providing service in the District have multiplied during recent years and the need for expansion in a fast-growing community are apparent.

In order to maintain present rates, it becomes necessary to discontinue cash discounts on bills, a policy which will go into effect July 1, 1962. This will not offset the rising costs of service, but will go a long way in eliminating losses by the District, and at the same time assist materially in improving and expanding electric services.

It is the desire of your Directors that the discontinuance of the discount be a temporary measure and that it can be resumed as soon as feasible.

DONNER DOINGS

By VIRGINIA O'BEAR

Needless to say that the buzzing around Donner Lake since last Friday and Saturday nights concerns the unique whistlers since they won first place at the Flaming Folies. Jean Walker, Jerie Bonano and Nancy Brodie of the Donner Lake Fire Auxiliary are mighty proud of the poster with the \$25 cleverly executed by Eve Popovich and Gladys Dolley. The poster will be on display at Don-lac until the next auxiliary meeting May 17 for you people who would like to see it. Milla Johnson made a special trip to Donner to help her fellow members put on the skit. With but one rehearsal, these gals pitched in like good trouper and worked hard to win for their auxiliary. Our hats off this week to the Fire-ettes of Truckee and all participating clubs for the successful Flaming Folies and hope they make it an annual affair.

The officers of the Donner Lake

Volunteer Fire Department and the Auxiliary met at Donlac Lodge Monday evening for a joint meeting to discuss activities for the coming year. An interesting report was given by the firemen on progress made the past year concerning firemen, equipment and operation. The firemen agreed to help the Auxiliary members with the annual barbecue if the Donner Lake Regatta occurs July 7 and 8 as announced last week. Donner Lake Lodge, Inc. plans to sponsor the races this year so more news on this later as plans are completed.

The next officers meeting of the Donner Lake Fire Auxiliary will be held at the home of Georgiana King, May 14. The regular meeting will be May 17 with hostesses Jeri Bonano, Nancy Brodie and Laura Horman announcing the place at a later date. At the last meeting held at the Riverside in Truckee, three members volunteered to help the Fire-ettes serve lunch to the clean-up workers on May 12. Bess Reid, Claudia St. Claire and Virginia O'Bear will lend a hand on this annual clean up of Truckee. Anyone else interested report to the Truckee Fire

House.

Children brought home notices this week announcing Public School Week. I hope all the parents in our area visit the schools and inspect the work of the pupils. It really means a lot to them and they are so proud of their work on display.

Mr. and Mrs. Earl Kiley of Ohio have been visiting their daughter and son-in-law, Mr. and Mrs. Hal Gilson for several weeks. Gil said they will be going home in another week or so.

Petitions were turned in to our local postmaster, Richard Higgins this week requesting a contract sub station which would give us a Donner Lake postmark. It is believed to ease the strain in Truckee as there is a parking problem there. Our postal sub station would come under the jurisdiction of our local postmaster if we are successful with the postmaster general in Washington. We will know in a few weeks if there are enough people at Donner to warrant this request.

Despite the bad weather over the weekend, lots of successful fishermen were showing off their prize "catches." Willie Curran caught another nice one and I saw several others out in boats netting some good sized ones, too. Thank goodness the fuel oil didn't damage the fish. The kokanee Charlie caught Sunday were just simply delicious and no trace of fuel oil.

It is good to see Dick Walker up and around again after his recent surgery at the Tahoe Forest Hospital. He made his first trip into Truckee Monday since his hospitalization and went to the joint board meeting Monday evening with the firemen and ladies. Glad you're back on your feet, Dick.

KUCHEL HITS RAISE FOR POSTAL RATES

The administration was charged by U. S. Senator Thomas H. Kuchel of California with unsound policies that present the risk of "digging graves for our newspapers and magazines" in seeking to impose sharp increases in certain categories of postal rates.

In a speech for delivery in the senate, the assistant Republican leader hit at the "maze of all this confusion" and warned the rate measure approved by the house could be the most adverse legislation in recent years. Voicing fear of the effect on the free press, Kuchel commended the chairman and ranking Republican member of the senate post office and civil service committee, Senators Olin Johnston of South Carolina and Frank Carlson of Kansas, for making an exhaustive review of the proposed scales.

The senior California senator said that in seeking a balanced postal system budget the executive branch not only is threatening to bankrupt some of the nation's most respected publications but assailing \$20 billion-a-year mail order business.

Commenting that he has been "hearing from many constituents who will be placed in an economic straightjacket," Kuchel noted that second class rates have jumped 89 per cent and third class charges 150 per cent in the last decade. He protested that the post office department puts publishers on "the economic scaffold every time the subject of increased postal revenue comes before the congress.

The 1859 California Legislature authorized the people of the six counties south of the 36th parallel to vote on state division; the 1860 Legislature opposed the measure and vote was ever taken.

SIXTH GRADE: Before the end of the last quarter the class took a very difficult vocabulary test which contained a sampling of all the new words we have had for the past three quarters.

The following received grades ranging from 70 per cent to 100 per cent: Shirley Davis, Pam Horman, Mike Kydd, Mike Larsen, Phillip Riden, Linda Russell, Karel Sauby, Allison Spillner, Ray Wiser and Jill Wurst.

The following started the new quarter in good shape as far as spelling is concerned: They studied hard enough to receive on A on their trial spelling test. Diane Daly, Shirley Davis, Yvonne Dumas, Stan Greene, Pam Horman, Mike Larsen, Sheila Rosamond, Linda Russell, Karel Sauby and Jill Wurst.

The week following the beginning of the fourth quarter, we had a review spelling lesson covering the previous five lessons. The following were allowed to take a very difficult, above grade level bonus spelling list of 24 words: Mike Borden, Stan Greene, Pam Horman, Mike Larsen, Linda Russell, Karel Sauby, Barry Waters, Ray Wiser and Jill Wurst. Mike Borden and Karel Sauby were the only ones that obtained 100 per cent.

Jill Wurst was absent on the day of the bonus test. New class monitors were appointed for the last quarter: Alison Spillner, class librarian; Henry Frates, mid-morning milk money and lunch count; Linda Russell, maintenance of lunch cards; Karel Sauby, recording of

arithmetic homework; Barry Waters, paper monitor.

Judge Clel Georgetta of Reno has handed down his decision on the Urban Renewal Trial in that city in favor of the protesting property owners. The owners property was being condemned out of clearance area for urban renewal. Many of the homes were acquired by the development office and 50 per cent remained at the time of the trial. Land owners went to court to stop the proceedings against their property and the trial was a test as to whether the area was blighted and whether urban renewal board had the right to condemn the properties. Frank Salla was the attorney representing the property owners and the North Shore's Noble Murray who resides in Brockway was the appraiser who testified for the property owners.

A revolutionary method of transporting large quantities of electric power by direct-current transmission is the basis of the proposed intertie between the Pacific Northwest and the Pacific Southwest now being urged by government officials. As the above map depicts, the double conductor line operating as a common carrier with service available to both public and private agencies, would connect California steam generation with Northwest hydroelectric generation. Surplus power would be transported in either direction between Grand Coulee Dam in the State of Washington and Los Angeles and intermediate points.

LOGGERS OFFER AID FOR FIRE FIGHTING

SAN DIEGO — A forest fire fighting force of more than 13,000 men was available to help in fire emergencies in California's commercial timberland in 1961, according to Knox Marshall, forest engineer, Western Pine Association, Sacramento.

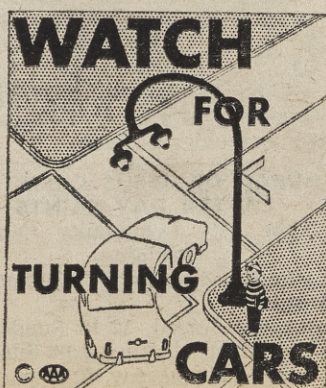

Marshall reported to the California State Board of Forestry meeting in San Diego Tuesday, that the forest products industry in the state was surveyed during the past three months and asked questions like "how many trained men are available to fight fires; how much and what kind of equipment can be dispatched to a fire; how many men and how much equipment went to how many fires in 1961; and they were asked to describe their fire prevention efforts during the 1961 season.

The survey, Marshall said, covered 29 per cent of the total volume of timber harvested. "With nearly a third of the industry covered," he said, "we feel that the data gathered is valid and representative of the total effort.

"Extending the survey data to cover the statewide industry indicates that nearly 12,000 forest industry employees are available for fighting fires and would be accompanied by 1,200 trained supervisory personnel," Marshall said.

"Millions of dollars worth of logging and road construction equipment was available and much of it was used last year, for fighting forest fires. For instance, 89 per cent of the companies surveyed sent both men and equipment to fires during the 1961 season.

"The statewide forest products industry," according to Marshall, "has more than 1,000 mobile radios worth approximately \$1 million which could be useful for emergency fire communications. Nearly a thousand bulldozers and truck transports to haul them were available."

RESEARCH PLANNED ON RESERVOIR FISH

By Congressman H.T. Johnsen

All throughout California the various water development agencies, federal, state, local and private enterprises, are building reservoirs in a massive program to realize one of our most precious resource, water.

For reasons not yet entirely understood fishing in man-made reservoirs usually falls off after a few years of excellent catches. Typically, the decline begins about the third year after a new reservoir is first filled and stocked with desirable food and game fish.

It has been proposed that a broad program of research be initiated by the federal government to determine the cause of this decline. I am co-sponsor of legislation which would authorize this study.

Testifying a few days ago before the fisheries and wildlife conservation subcommittee of the house committee on merchant marine and fisheries, I urged enactment of this program, pointing out that a vast network of dams now being constructed in California — most of them in the Second, mountain-valley, district — and emphasizing that the reservoirs created by this development must be used for multiple purposes.

This includes recreation in addition to the more traditional uses of flood control, reclamation and power generation. Reservoirs in California have, more than anything except highways, changed the recreation patterns of the people of our state. Reservoirs and highways combined have opened a tremendous potential for wholesome recreation. Reservoirs to a water hungry and recreation-needing California can, with wise advance planning, raise the economic standing of communities throughout our mountain and valley areas.

erty can be classified ranging from farm districts, single family zones to industrial districts.

Gibbs, also said, that precise zoning will establish many property uses as a matter of right and will allow development of multiple dwelling, commercial developments and other types of property uses to proceed without the necessity of getting land development permit as is presently required.

Persons interested in getting detailed information on the ordinance may use a copy of file at the Planning Department, 219 Maple Street, Auburn.

The bill which I sponsor would put the department of the interior into a comprehensive national reservoir fishery research program to search out the things about reservoirs which make for the good production of game fish.

TAXABLE SALES HIT HIGH MARK IN COUNTY

SACRAMENTO — (CNS) — Taxable retail sales in Nevada County during the last three months of 1961 rose 14.1 per cent from the previous year to \$7,222,000, bringing total taxable retail sales for the year to \$25,790,000, the state board of equalization reported.

The fourth quarter sales returned \$216,660 by the state's 3 per cent sales tax, amounting to .11

per cent of the total sales in California for the October-December period.

Statewide, self-assessed taxable transactions reached nearly \$24 billion during 1961, an increase of \$626 million, or 2.7 per cent over the record volume of 1960. The board said the gain was made even though business conditions did not begin to improve materially until the third quarter of 1961.

YOUTH SUPPORTS JOE SHELL AT CAPITAL

Youth came into its own Saturday when leaders of the Joseph C. Shell campaign for the republican nomination for governor met at the El Mirador Hotel, Sacramento, to exchange ideas and lay out a program for the month ahead. Out of 80 men and women attending from 24 counties of northern California, there were only seven with gray or graying hair.

Robert G. Alderman, campaign manager for northern California, presided. Earl Hardage, campaign manager for southern California, and Dick Wheaton, state coordinator, came up from Los Angeles for the meeting.

Rev. Stephen Homoki was guest speaker at both the morning and evening services at Sierra Bible Chapel Sunday, April 29.

Before he became a minister, Rev. Homoki was a world renowned rodeo performer, riding with Tom Mix all over the United States and Europe. Since then he has utilized his ability with horses to reach the Indians in Arizona. His experience in the back country of Arizona were highlighted by many slides which he showed.

FIRE CONFERENCE AT TAHOE ENDS AFTER SUCCESSFUL MEET

The eighth annual central Sierra forest fire conference came to a successful close Friday after a two day meeting held at the University of California alumni association center near Tahoe City.

Guest speaker for the Wednesday night banquet was State Senator Ronald Cameron who spoke on "A Legislator Looks at Fire Control," he placed emphasis on the growing population pressures and on the increasing job the fire services will have as a result of these pressures.

He told the group that increased development of recreational facilities throughout the state would materially aid in prevention of forest fires. Also he stated that stepped-up programs in fire research was essential to continued progress in fire control. Senator Cameron paid tribute to the dedication of the men in the fire control agencies.

One of the prime reasons for conferences of this type was well illustrated by the panel discussion on cooperation with law enforcement agencies, and the problems encountered in establishing roadblocks, closures, and evacuations.

Dr. Keith Arnold, director of the Pacific southwest forest and range experiment station, traced the history of fire research and told the group that the still unanswered problem is that of fire control during the "crisis fire period" when extremely hazardous conditions exist.

Thursday afternoon was devoted to demonstrations of new equipment developed by manufacturers and the various fire control agencies. Drawing top interest were showings of extremely portable radio receivers, and the use of patrol plans to rapidly deliver aerial photographs.

Officers for next year's conference are Peter Wycoff, district ranger, Big Bend ranger district, Tahoe National Forest, general chairman; Bill Bell, assistant forestry superintendent, Washington ridge youth conservation camp, California division of forestry, equipment chairman; and Bill Barnes, district ranger, Alpine district, Toiyabe National Forest, executive secretary.

Attending from the local area were District Ranger George Steed and District Fire Control Officer Nelson Stone.

COFFEE BREAK WILL BE HELD BY CHAMBER

KINGS BEACH—The Lake Tahoe-Sierra Chamber of Commerce announced that it would sponsor a series of coffee breaks for the residents of North Sierra Lake Tahoe area.

Fred Schultz, manager, said that the chamber had been seeking a means to reach more people in the area and felt this "town hall coffee break" idea would appeal to many. "Many of the citizens of this area like to meet over a morning cup of coffee and rake community problems around." This weekly coffee break should help the chamber to feel the pulse of community thinking and act accordingly, he concluded.

Meetings are planned as a weekly series and each weekly session of coffee breaks will be held in a different location to enable residents of each area to participate. They will be announced for Squaw Valley, Tahoe City and Homewood areas.

Any subject of community interest may be brought to these meetings, Schultz stated.

Nob Hill in San Francisco was the home of the city's pioneer millionaires.

HOMWOOD RESIDENT LANDS HUGE MARLIN

HOMWOOD — Dan Hauserman, Homewood summer resident, hooked a 1009-pound marlin off the Kona coast of the Hawaiian Islands Wednesday but missed a world's record because he had to have help in landing the fish.

Hauserman, who had never caught a marlin before, was fishing aboard the Walkyrie II when he hooked the monster. It took five hours and 50 minutes to bring the fish to gaff, but Hauserman needed the assistance from first mate William Erickson.

publicity originating in Sacramento.

The spokesman for the group asked Cameron and Lunardi for a businesslike and efficient end to bad publicity and asked the two officials to urge the critics to come to the valley for a first-hand look at the situation.

The continuing unfavorable news stories, it was pointed out, are bringing economic harm to the entire area and the prestige of the district is suffering from the bad publicity.

Both Cameron and Lunardi have agreed to try and correct the situation.

At the last meeting held at Squaw Valley Inn with the lawmakers were John Bulmer, William Newsom, Sr., and Fred Onorato of Squaw Valley; Tim Sullivan of Alpine Meadows; N. F. Dolley of Truckee; William Briner, Al Lewis, Herb Kahn, Joseph Joynt and James McCafferty of Tahoe City.

In his reply to Nixon's criticism, Governor Brown said:

"I am of course, concerned about any allegation of impropriety, however unsupported it may be, and however questionable the objectivity of the source. . . . Meanwhile, we are not going to stand still at Squaw Valley just because Nixon made an attack. We will continue to work our way out of inherited problems."

appeared before the board to discuss the possibility of purchasing district property near the Tahoe Wye and was asked to submit a proposal.

COMPACT MEETS TO DISCUSS TAHOE LAND

CARSON CITY — The Nevada compact committee met Thursday to work out an agreement for a Nevada-California recreational area at Lake Tahoe.

The committee voted that titles to any land to be administered by the bi-state commission should be retained by the respective states.

Chairman Ray Knisley said he was certain the Nevada legislature would oppose any move infringing on state sovereignty.

The committee was created by the state legislative commission to draw up a proposed compact with California for administration of the proposed recreational area. Key matters seems to be acquisition of 22,000 acres of land now owned by Captain George Whittell, who reportedly has put a \$20 million price on it.

and mechanical facilities to serve the aircraft using this airport. All of those who have made a personal investigation are enthusiastic about its future. Also among those present at the meeting were, Edson D. Dronbergen, Eugene M. Barbero and Stanley M. Jessen, representative of the Shell Oil Co., who outlined the facilities and services their company could offer the district.

John H. Pritchard, president of North Tahoe Airways, a recently formed firm, with headquarters at the San Francisco International Airport, explained the type of operations he proposed between San Francisco, Los Angeles and this airport and other base services his firm could furnish. Director Fred Schultz expressed concern over the delay in completing the work now under contract.

The board also went on record as requesting the Truckee-Donner Chamber of Commerce and the Lake Tahoe Sierra Chamber of Commerce to plan and develop the cachet and cancelling stamps for the dedication of the airport, which will occur sometime in July, at a date yet to be set.

PATROL PURPOSES SHOWN AT OFFICE

Receipt of a large color reproduction of the California Highway Patrol's purpose and objectives was announced today by Lieutenant O. P. Ledford, officer in charge of the Patrol's Truckee substation office.

"This attractive reminder of the department's purpose for existing will soon become a familiar sight in each of our offices throughout the state," Lieutenant Ledford said.

"The California Highway Patrol comes in contact, one way or another, with a large portion of the state's motoring public every year. Despite this fact, only a comparatively few people really know and understand our function. We hope the public display of our purpose and objectives will serve to correct this situation."

"We invite the public to visit our office to learn more about their patrol, which exists to serve the people of California," the lieutenant concluded.
